## Presented by:

## Topics:

### **New Concepts in Soil Health**

Get up to speed on the latest concepts in soil health—including microorganisms and micronutrients with soil health.

### **Benefits of Grazing Cover Crops**

Hear a brief overview of grazing cover crops. Get the benefits and get some tips on how to get started.

### **What changes can you expect to soil?**

With your own senses— see, touch and smell soil from a soil health system as discussed earlier in the field day with a hands-on in-field session.

## Speakers:

### **Hoorman Soil Health Services, Jenera, Ohio**

Jim Hoorman

### **Natural Resources Conservation Service, SE Area Grazing Specialist**

Robert Zupancic

### **Host & Soil Health Farmer**

Roger Wenning
